EDUCATION

Washington University in St. Louis

St. Louis, MO

Bachelor of Science in Computer Science, Data Science, Minor: Urdu, GPA: 3.95

May 2026

Awards: Boeing + Deloitte Scholar, WashU Chancellor Fellow (5K), JKCF Scholarship (55K), QuestBridge Scholar (Full Ride)

Relevant Coursework: Data Mining, Algorithms, Cloud Computing, Programming Systems, Parallel & Concurrent Programming, Object Oriented Programming, Full-Stack Development, Computer Security, Data Structures, Linear Algebra, Data Science

SKILLS

Languages: Java, Python, HTML, CSS, JavaScript, C++, PHP, SQL, R, React, Spring Boot, Angular, H2, Node.js, MongoDB

Developer Tools: AWS, Git, VS Code, Eclipse, JetBrains, Anaconda, R Studio, Linux, Orchestra, Swagger, JIRA, Agile, Postman

WORK EXPERIENCE

Wells Fargo

Software Engineering Intern | Irving, TX

Jun 2025 – Aug 2025

- Designed and deployed a data API module, enabling real-time and batch data sharing for 15+ enterprise teams
- Built Spring Boot microservices backed with MongoDB, improving response times by 85% and system uptime during peak loads
- Implemented data validation and governance controls, cutting data quality issues by 52% across shared datasets
- Delivered a production-ready MVP 30% faster than planned, accelerating enterprise adoption and scalability to other teams

Sophomore Discovery Fellow – Software Engineering | Charlotte, NC

Jun 2024 – Aug 2024

- Developed internal-facing application, enhancing engagement for 230K employees and boosting metrics by 18%
- Refactored backend code and improved indexing, increasing data retrieval speed by 32% and enhancing UX
- Led integration of new features into app, reducing processing time by 33% and ensuring cross-platform functionality
- Automated data reporting using automation tools, cutting reporting time by 67% and increasing reliability by 25%

Washington University in St. Louis, Landsness Lab

St. Louis, MO

Data Science Researcher

May 2023 – Present

- Analyzed imaging data using COBRAWAP pipeline, extracting and graphing 100,000+ waves from CSV Files
- Developed open-source tool, [SWAVE](#), generating graphs of wave planarity, velocity, and time delay heat maps
- Designed specialized filter using ArgsParse to selectively collect pertinent data points, enhancing accuracy by 50%

Lawtiq

Calgary, CA

Software Development Intern

Jan 2023 – May 2023

- Engineered customer representation algorithm, resulting in 30% improvement in client retention metrics
- Aided in developing LSI-powered search engine, optimizing lawyer-client matches enhancing efficiency by 28%
- Created an algorithm that aids 500+ lawyers to track clients' information through an interactive dashboard

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Management Leadership for Tomorrow

Washington, DC

Career Preparation Fellow

Jan 2024 – Present

- Accepted into a selective 18-month professional development program for high-achieving diverse talent
- Attend conferences hosted by industry leaders, such as Wells Fargo, Deloitte, LinkedIn, and Target

HeadStart Fellowship

Austin, TX

Head of Admissions, Technology Vertical Lead, and Mentor

Aug 2024 – Present

- Led review of 1500+ applications/year, streamlining grading to cut time by 40% and boost consistency by 25%
- Provide 1:1 mentorship, with 100% placement in securing internships or full-time offers within 6 months

SEO Career

New York, NY

SEO Success and EDGE Participant

Jan 2024 – Aug 2025

- Completed 200+ hours of coaching and online instruction targeting professional, technical, and soft skill development
- Mastery of fundamentals specific to Technology in order to increase chances of securing a return offer post-internship

Other Orgs: Association for Computing Machinery, Muslim Students Association, ColorStack, LEDA, Ismaili Students Network

PROJECTS

Automated Workday Management System (Python – Selenium, Tkinter)

- Developed automated clock-in/out system, reducing manual entry time by 90% for daily work processes
- Enabled over 50 TAs to streamline their daily logging tasks, significantly improving efficiency and time management

HackWashU – WashU4Wellness MVP for Health Gamification (Node.js, Express, React-Native, MongoDB, SendGrid)

- Built a wellness platform engaging 300+ users, boosting fitness participation by 25% through tracking + leaderboards
- Developed secure role-based authentication for all users, ensuring seamless user experience with 99% uptime

Additional Hobbies: Cricket, Basketball, Rocket League, Arijit Singh, Language Enthusiast, Stewardship for the Community
